groups + travel = easy

We're changing to bring you *more* group business!

The group travel market has changed significantly since we published the first Group Travel Planner over 17 years ago. We've seen new styles of groups, new needs and wants, new prime destinations, and a complete change in the perceived demographics of our industry.

Through it all we've consistently provided an essential resource guide to professional and semi-professional group travel organizers, setting the industry standard. Now for 2012, we are raising the standard again, as we adapt the Group Travel Planner to the tastes of our user and to continue to help you attract group business.

New this season, we'll feature engaging editorial content to help inform group travel planners of the many benefits of visiting your province. Our editorial staff will cover many topics of interest to the industry.

We've also redesigned the look and feel of the Group Travel Planner to create an inviting, easy to read format, that will keep *Western Canada Group Travel Planner* in the hands of Group Travel Planners!

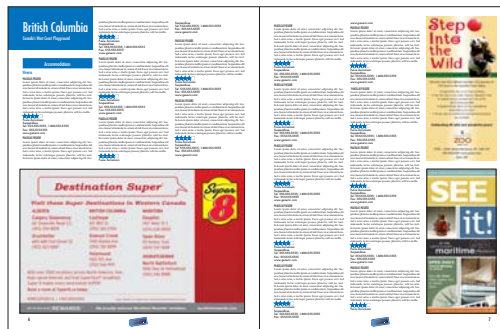

We are pleased to offer this unique opportunity to be a part of the next generation of group travel suppliers, and look forward to your participation.

Colourful, informative articles exhibit many exciting features throughout your province and assist group travel organizers in planning itineraries.

Our new layout showcases stories and information about your province in an attractive and easy to read format.

Updated and modernized styling ensures your message is presented clearly and professionally in our Directory of Suppliers.

We've refreshed our covers with teaser text and stimulating visuals.
